CONSTANT HEIGHT BRANCH DETAILS

Actual saved native side cuts | 1:20 | not installed elevation

TAP-VAV-02: 350x350 to 350x300mm

Original branch endpoint retained

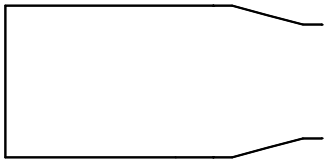
TAP-VAV-03: 350x400 to 350x300mm

Original branch endpoint retained

TAP-VAV-05: 350x350 to 350x300mm

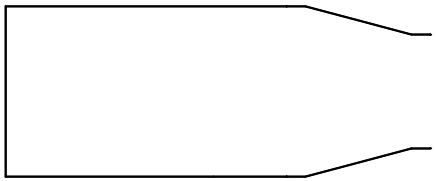
Original branch endpoint retained

TAP-VAV-08: 350x400 to 350x300mm



Original branch endpoint retained

TAP-VAV-09: 350x450 to 350x300mm

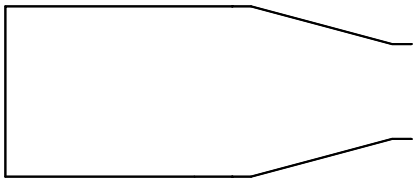


Original branch endpoint retained

TAP-VAV-14: 400x350 to 400x250mm

Original branch endpoint retained

TAP-VAV-15: 400x450 to 400x250mm



Original branch endpoint retained

TAP-VAV-16: 350x400 to 350x300mm

Original branch endpoint retained

TAP-VAV-17: 350x350 to 350x300mm

Original branch endpoint retained

——————— 0.5m reference

Gauge, collar and nominal/internal assumptions retained; local losses remain conditional

Short adjacent fitting interaction, products, full pressure and installed clearance unresolved
