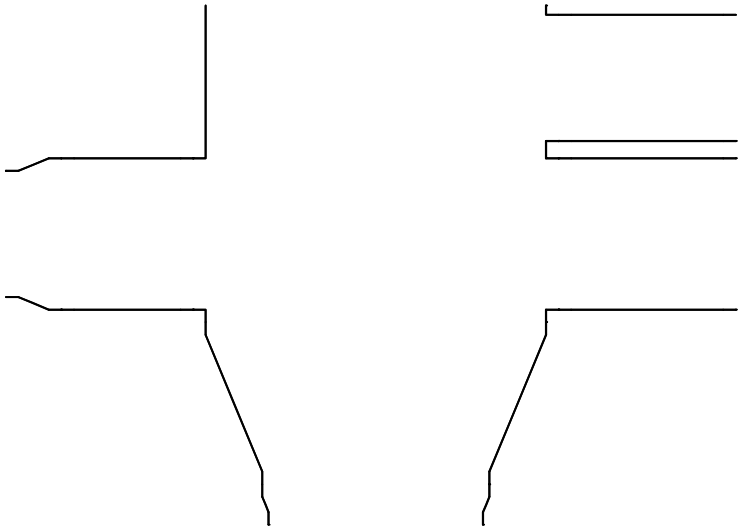
CONSTANT JUNCTION CORE DETAILS

Actual saved plan and side material sections | 1:30

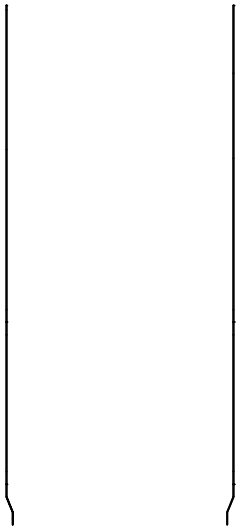
Core1350x900;upper branch500x900;opposed lower branches600x900mm

Six external45degree contractions restore inherited downstream sizes

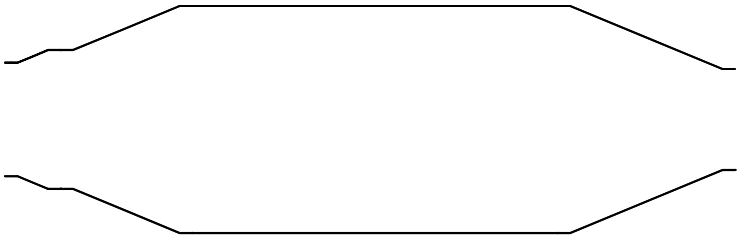
PLAN / z=0



TRUNK SIDE / x=0



LOWER BRANCH SIDE / y=0



0.5m reference

Clear axial gap between branch apertures:69.416mm

Assumed gauge0.8mm,collars50mm;existing upper-cap clearance37.5mm

Close coupling,pressure stations,friction,noise and complete pressure remain unresolved
